7260 Objects to Olympic Boulevard Widening

The Dept. of Transportation has reviewed with the Tract 7260's Board proposals for updating the Westside Community Plan.

The current plan calls for widening Olympic by an additional lane. The Board strenuously argued that the street was already as wide as a free-way and that our sidewalks already are too small. The Department's representatives noted the Board's objections but could not give assurances that Olympic would not be widened.
